JOHN JHIGGER NEPOMUCENO

Web Developer

njohnjhigger@gmail.com • La Trinidad, Philippines • linkedin.com/in/jhigger • github.com/jhigger • jhigger.vercel.app

Self-taught Web Developer with 5 years of client experience building responsive, performant web applications using TypeScript, React, and Next.js. Employs spec-driven development, prompt architecture, and agentic workflows to accelerate delivery and maintain clean modular code. Bachelor of Science in Computer Science student at University of the Cordilleras.

EXPERIENCE

Web Developer

Client Solutions & Independent Contractor

Jul 2020 – Dec 2025

- Delivered responsive web applications using TypeScript, React, and Next.js across diverse client requirements.
- Applied human-in-the-loop agentic workflows and spec-driven development to prototype and ship clean, tested modules.
- Engineered reusable component systems using Tailwind CSS, shadcn/ui, and Radix UI primitives.
- Integrated third-party APIs, authentication (Clerk, Supabase, Firebase), and cloud databases (MySQL, PostgreSQL).
- Configured deployments and CI/CD pipelines via Vercel for zero-downtime releases.

SELECTED PROJECTS

Duckett Architecture Showcase

Next.js, React, Tailwind CSS

Feb 2023 – Oct 2023 • Client Project (New Zealand)

- Delivered an image-focused portfolio for a New Zealand architecture firm.
- Optimized static site generation and metadata for high Core Web Vitals and SEO performance.

Niuvaka Trust Web Platform

TypeScript, React, Radix UI, React Hook Form, Tailwind CSS

Aug 2024 – Oct 2024 • Client Project (New Zealand)

- Built an accessible organizational website for a New Zealand trust using headless Radix UI components.
- Created schema-validated forms via React Hook Form and Zod for reliable submissions.

RAC Logistics Platform

TypeScript, React, TanStack Table, TanStack Query, Headless UI

May 2024 – Sep 2024 • Client Project (Nigeria)

- Engineered a web dashboard from Figma logistics specs for freight management and tracking.
- Implemented virtualized tables with multi-column sorting, search filters, and query caching.

SKILLS

Languages

TypeScript, JavaScript, Java, HTML5, CSS3, SQL

Frontend & Libraries

React, Next.js, shadcn/ui, TanStack Query, TanStack Table, Tailwind CSS, Radix UI, Base UI

Backend & Databases

Node.js, PostgreSQL, MySQL, Supabase, Firebase, REST APIs

Tools & Methodologies

Git, GitHub, Spec-Driven Dev, Prompt Architecture, Human-in-the-Loop, Agentic Workflows, Figma-to-Code, Postman, Vercel

EDUCATION

Bachelor of Science in Computer Science

University of the Cordilleras, Baguio City

2026 – Expected 2028

Senior High School (ICT Strand)

University of the Cordilleras, Baguio City

2016 – 2018

CS FUNDAMENTALS

Data Structures & Algorithms

AVL trees, graph traversal, infix/postfix conversion, and sorting algorithms in Java.

Object-Oriented Programming

Encapsulation, inheritance, polymorphism, and modular class design.

Web Architecture

Client/server lifecycle, caching, state synchronization, and web accessibility.
